DETAILED ACTION

Notice to Applicant

1. This communication is in response to the amendment filed 5/19/09. Claims 1, 3-6, 15, 17-20, 27, and 28 have been amended. Claims 1, 3-15, 17-24, 27 and 28 are pending.

Allowable Subject Matter

2. Claims 1, 3-15, 17-24, 27 and 28 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Claims 1 and 15, now renumbered as claims 1 and 11, respectively, are directed to a communication system for providing information of a medical doctor's questions to patients, said communication system comprising a medical doctor terminal apparatus, a patient terminal apparatus, and a database server apparatus for storing question set data for the medical doctor's questions to patients.

The closest prior art of record, Clarkson (US 2003/0046305 A1), Kraftson et al. (6,151,581), Jeacock et al. (6,014,630), and Tipimene (US 6,381,029 B1) teach generating question programs, displaying questions to patients, entering answer data, transmitting the entered answer data, a template storing means, receiving question sets dependent on a particular patient, and terminating a network connection.

However, the closest prior art of record does not teach or fairly suggest a *generating means for generating, upon receiving the question set data from said*

database server apparatus, question programs that create the forms which are dependent on a particular patient among a plurality of patients using a patient-independent template program from among the template programs stored in the template storing means so that patient-dependent question programs and forms are not transmitted through the communication network, the forms being created on the patient terminal by inserting the question set data received from said database server apparatus into the template programs, thereby retaining security of the questions to patients, the question programs being generated for providing medical doctor's question to patients.

Dependent claims 3-14, 17-24, and 27-28 (now renumbered as claims 19, 2-5, 21-22, 6-10, 20, 12-15, 23-24, and 16-18) incorporate the allowable subject matter of their respective independent claims, through dependency, and are also allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
